Environmental Policy Statement

At Peddle Thorp, sustainability is about to the promotion, creation, and function of healthy, cost-efficient spaces whilst targeting social and environmental positive solutions.

As such, Peddle Thorp are committed to continually develop an environmentally responsible culture which embraces sustainable design and principles. This is demonstrated by the implementation of Peddle Thorp's Business Management System, which is third party certified in compliance with the requirements of ISO 14001:2015.

Peddle Thorp's primary objectives for the Environmental Management System are to:

- 1) **Improve Peddle Thorp's Sustainability Culture.**
- 2) **Improve and embrace sustainable design throughout our projects.**
- 3) **Engage in Sustainability Education for both staff and clients.**

Within each objective, we seek to:

- a. **Minimise environmental impacts such as the prevention of pollution and reducing carbon footprints.**
- b. **Create healthier buildings/ environments.**
- c. **Reduce on-going running costs.**

Peddle Thorp are fully committed to fulfill its compliance obligations required within the ISO 14001:2015 Environmental Management System. Our commitment to the improvement of this system is an evolving process which requires considered response to ongoing changes from internal and external influences.

Brett Hudson

Chief Executive Officer
